SERVICE & REPAIR

KEEPING INDUSTRY ON THE MOVE

We've provided the solutions to keep industry moving for nearly 50 years and we know how important it is to your productivity and bottom line to keep your ball screws operating efficiently. When you need ball screw repair, timing and service is of the essence. Our sales and service team stands by with free, comprehensive evaluations, supported by reverse engineering and failure mode analysis. Our repair team offers one of the fastest turnaround times in the industry, reducing machine down time and saving up to 70% of the cost to replace with new product.

50 YEARS OF MAINTAINING PRODUCTIVITY

We service all brands/manufacturers (including American Ball Screw, Beaver Precision Products, Century, Cincinnati, Nook, NSK, Rockford Ball Screw, THK, Thomson/Saginaw, Tsubaki, Twentieth, Warner Electric)
